Name: Shrey Pandya
Email Id: shreypandya1301@gmail.com, M: +353 892500539, GitHub: https://github.com/Im-Shrey, Portfolio: https://im-shrey.github.io/my-portfolio/ LinkedIn: https://www.linkedin.com/in/shrey-pandya/, Dublin, Ireland

Career Objective:

MSc Artificial Intelligence student with a strong foundation in Cloud Computing and practical experience developing full-stack applications using modern frameworks, APIs, and databases. Aspiring to build a career in AI and Cloud technologies by contributing to scalable, intelligent applications and gaining hands-on experience with cloud-native and AI-driven solutions.

Education:

Master's in Science (MSc), Computing (Artificial Intelligence) *September, 2026-Present*
Institute: Dublin City University
Bachelor's in Engineering (B.E.), Computer Science and Engineering, (CGPA: 8.43) *November, 2022- April, 2026*
Institute: VIT Bhopal University

Projects:

User Authentication System (Website): *March, 2023*

- Designed end to end user registration and login flows.
- Secured passwords with bcrypt and issued JWTs for session management.
- Built RESTful APIs in Express and connected to MongoDB Atlas.
- Deployed frontend on Netlify and backend on Render, automated with GitHub Actions.
- Link: https://delicate-puffpuff-4747e7.netlify.app/

Personal Notes Website: *August, 2024*

- Developed CRUD note functionality with per user isolation.
- Exposed REST APIs via DRF and consumed them in a React SPA.
- Implemented token based auth and client-side state management with Redux.
- Hosted backend on Railway and frontend on Firebase, enabling CI/CD.
- https://personal-notes-app-eaca5.web.app/

Resume Builder Website: *August, 2025*

- Built a form driven web app to generate and export PDF resumes.
- Created multiple dynamic templates and live preview feature.
- Backend endpoints assemble template data into PDFs using PDFKit.
- Deployed full stack site on Vercel with GitHub OAuth for user logins.

Independent Coursework:

Oracle Java Certificate, AWS Fundamentals of Machine Learning and Artificial Intelligence

Skills and Expertise:

- **Technical Skills:**
  - Languages: Java, Python, C++, JavaScript, MySQL, HTML/CSS
  - Frameworks: Node.js, Django, FastAPI, Spring Boot, Material-UI
  - Developer Tools: Git, Docker, Google Cloud Platform, VS Code, IntelliJ, PyCharm
  - Cloud Platforms: AWS, Azure, Netlify, Render, Railway, Firebase, Vercel
  - Libraries: pandas, NumPy, Matplotlib
- **Organizational Skills:** Public Speaking, Leadership, Team Work

Internships:

Sky Productivity Pvt. Ltd., Ahmedabad *May, 2025- July, 2025*

- Carried out front-end web development tasks.
- Designed and implemented responsive UI components using HTML, CSS, and JavaScript.
- Collaborated with the team to improve cross-browser compatibility and mobile responsiveness.
- Enhanced existing project layouts for better user experience and accessibility.

Extra-Curricular Activities

- Performed anchoring at the International Kite Festival in Grade 8.
- Achieved Black Belt in Karate in Grade 9.
- Represented school in Wushu National Boxing Competition in Grade 6.

Honours and Awards:

- Student of the Year in Grade 7 for overall excellence in academics and extracurricular activities.
- Gold Medallist in Mathematics Olympiad, Grade 7.
- Silver Medallist in Science Olympiad, Grade 8.
